Maintenance Careers

Together We Soar

Where is your career taking you? At CommuteAir, your career can take you just about anywhere – because getting people to where they need to be is what we do. Our role as a regional airline is an important one that we take seriously. Community, mentorship, training and personal growth are all part of our DNA. We want to provide you with the skills and support that you'll need along your journey...and help you visit some new places along the way.

Whether you're joining the aviation industry for the first time or looking for your next step as a certified technician – we can help you find the right fit. Get competitive compensation including United Airlines flight benefits for yourself and your family.
